Modernization of Govt ITI and Engineering Schools

- The objective of skill development is to acquire and enhance specific abilities and knowledge that are relevant to candidates personal and professional growth.
- Skill development aims to improve performance, productivity, and effectiveness of youth in various areas of life.

As traditional livelihoods evolve, individuals need to acquire new skills to thrive in the modern workforce. To empower individuals and enhance their employability, OMBADC has approved several skill development projects being implemented through the SD&TE Department. These initiatives will provide valuable training opportunities for individuals to acquire advanced skills required to meet the current market demand.
